COMMISSIONER'S CORNER..... By Matt Farmer

1st & 10: I want to first commend everyone for playing their games on time. This has been a great season in that regard. Overall participation seems to me at least to be at an all time high and substitute coaches are becoming the exception. Keep it up!

2nd Down: I don't know about you, but I am getting excited about the upcoming NFL season. Training camps are right around the corner. I would be kind of interested to know how many of you play fantasy football. Off hand, I play, and I know Lance, Karl and Dave all play (Dave, Karl and I are actually in a league together). That really makes the NFL season that much more fun.

3rd Down: We are starting to see a bit of separation for the playoff spots. As it stands know, Denver and Kutztown are fighting for that last playoff spot in the Berry/Nitschke. Fenton City and Las Vegas are two games behind in the wild card hunt but are starting to run out of time.

Timeout: In the Payton/Tittle, Malvern currently has the last playoff spot at 8-4 but Texas is hot on Malvern's heels at 7-5. This one should come down to the wire. Sacramento has a faint hope at 6-6 but here too is running out of time.

4th Down: I have had a real busy month with work. As such, I was not able to circulate and prepare a coaching profile this month. My apologies on that. I should be back up and running on that next month.

COACHES' CORNER

Texas Lawmen's Matt Elder has a new email: mattelder1@comcast.net

Important Reminder Upon Completion of Regular Season.....

No team is permitted to make any player moves until after reporting their final game AND their 2008 dues payment of \$10 has been received by Commissioner, Matt Farmer.

You cannot cut or trade any players, nor decide on expiring Superstar contracts until those criteria are met.

All 1st Period Cuts are at the economical $\frac{1}{2}$ remaining contract value = Yrs left on contract x salary x 50%. Recent history has shown its becoming increasingly challenging to trade vastly overpaid players that offer mediocre production so cutting them in August may be the prudent step.

Just fodder to ponder over the Long Hot Summer before reaching your final decisions at the end of August.
